definition of what a mathematical statement is and what a mathematical proof is, as we do in Chapter II, which covers model theory and proof theory. The Foundations of Mathematics Foundations of mathematics is the study of the philosophical and logical and/or algorithmic basis of mathematics, or, in a broader sense, the mathematical investigation of what underlies the philosophical theories concerning the nature of mathematics. In this latter sense, the distinction between foundations of mathematics and philosophy of mathematics turns out to be quite vague. Foundations of mathematics - Wikipedia Mathematical Tour of Data Sciences. You can retrieve the draft of the book: Gabriel Peyré,
