Tina Hartert discusses a new study that aimed to evaluate the strength for a causal effect of Respiratory Syncytial Virus-Lower Respiratory Tract Infection (RSV-LRTI) in subsequent chronic wheezing illness to inform public health expectations for RSV vaccines. The Lancet Respiratory Medicine Cloth masks have been used in healthcare and community settings to protect the wearer from respiratory infections. The use of cloth masks during the coronavirus disease (COVID-19) pandemic is under debate. The filtration effectiveness of cloth masks is generally lower than that of medical masks and respirators; however, cloth masks may provide some protection if well designed and used correctly. Early Release - Effectiveness of Cloth Masks
